

Soft Red Winter Wheat:

# 25R46\*

## Maximizing Local Performance

25R46 is an awned, high yielding variety with above average scab resistance and good test weight.

### Management Comments

- Minimum recommended seeding rate 1.4 million seeds per acre. Yield potential significantly reduced at lower than recommended seeding rate.
- For optimum performance, plant on or up to two weeks after the fly free date.
- Fungicide application may be necessary when conditions favor stripe rust infection.

### Key Environments

High yield environments .....Insufficient Data  
 Low yield environments .....Insufficient Data  
 Wheat in corn stubble .....Insufficient Data

### Suitability

Intensive Management .....Insufficient Data  
 Late Planting .....Insufficient Data  
 Low Population .....Insufficient Data

## Traits Scores for 25R46\*

### Characteristics Scores

Yield .....	9
Test Weight .....	8
Seed Size .....	8
Lodging Resistance .....	8
Height .....	3
Winterhardiness .....	
Head Type .....	Awned
Heading Date North .....	0

### Diseases Scores

Leaf Rust .....	5
Powdery Mildew .....	5
Scab .....	6

### Featured Traits

Characteristics: 9 = Excellent; 1 = Poor; PAA = Predicts Above Average; PA = Predicts Average; PBA = Predicts Below Average; Blank = Insufficient Data.

[1]IMPORTANT: Information and ratings are based on comparisons with other Pioneer brand products, not competitive products. Positioning information is based upon historical observations and analysis of traits by Pioneer Agronomists and Research Managers. Trait scores are assigned by Pioneer Research Managers. Scores are based on period-of-years testing through 2012 harvest and were the latest available at time of printing. Some scores may change after 2013 harvest. Scores represent an average of performance data across areas of adaptation, multiple growing conditions, and a wide range of both climate and soil types, and may not predict future results. Products within a family receive the same score unless observations indicate a significant difference. Individual product responses are variable and subject to a variety of environmental, disease and pest pressures. Please use this information as only one component of your product positioning decision. Refer to [www.pioneer.com/products](http://www.pioneer.com/products) or contact a Pioneer sales professional for the latest and most complete listing of traits and scores for each Pioneer brand product.
